

Idea Duo

Idea Coffee + Milk Modules

Description

The evolution of Idea Cappuccino Module: equipped with two grinders and two bean containers Idea Duo offers the choice between two different sorts of beans for an even more versatility while maintaining supreme user-friendliness.

Like Idea Cappuccino, Idea Duo features the cappuccinatore, which draws milk directly from its container and turns it into creamy milk froth. It also offers the simultaneous preparation of coffee, hot water and steam. And with the Horeca kit, a simplified keypad, Idea Duo can easily be used as a self-service machine.

Main features

- Removable and washable brewing group
- Removable coffee grinders for easy maintenance
- Continuous steam production without damps
- Hot water production/hour (150 cc cup): 400
- Coffee preparations/hour (30 cc cup): 150
- Cappuccino preparations/hour (150 cc cup): 60
